

DEAN MIKE ARCHER LEAVING ?

.....

Oh no Mike !
Why this shocking spike ?

Just when the Faculty of Science is going up and up
Everyone's drinking the Mike Archer encouragement cup.

With you as our favourite Dean
We are all working so hard and keen.

Perhaps we should remember this tract
Being a good Dean is by no means an easy act
For a change, and with capability over a wide range
You are the best - which is a true fact.

True, Dean's work induces lots of headaches and stresses
Though you never wear any such external braces.

Must admit - first time at UNSW in the past 18 years,
Departure of a Dean has literally put me into tears.

Best personal regards –
Sri Bandyopadhyay
Assoc Prof, SMSE, Faculty of Science, UNSW
(Bandy the singing professor)
